RE: CLOSURE OF VIRGINIA'S DIRECTED OFFSHORE SUMMER FLOUNDER FISHERY

Effective 11:59 P.M., Eastern Standard Time (EST), Wednesday, April 18, 2012, the Directed Virginia Offshore Summer Flounder Fishery will close. Vessels that have entered Virginia waters and secured to an offloading site prior to 11:59 P.M., EST, Wednesday, April 18, 2012, may possess and offload 10,000 pounds of Summer Flounder, minus any previous landings during the fifteen-day landing period. Based upon landing reports from the National Marine Fisheries Service, Virginia seafood buyers and VMRC Law Enforcement, it is projected that Virginia will have caught 85% of the First Period Offshore Quota of 1,706,390 pounds of Summer Flounder by the above date and time.

Therefore, after 11:59 P.M., EST, April 18, 2012, it shall be unlawful for any person harvesting Summer Flounder outside of Virginia's waters to do any of the following:

1. Possess on board any vessel in Virginia waters any amount of Summer Flounder, in excess of 10% by weight, of Atlantic croaker or the combined landings, on board a vessel, of black sea bass, scup, squid, scallops and Atlantic mackerel.
2. Possess on board any vessel in Virginia waters any amount of Summer Flounder, in excess of 1,500 pounds, landed in combination with Atlantic croaker.
3. Fail to land and sell the vessel's entire harvest at the point of landing.

Only vessels holding a valid Virginia Summer Flounder Endorsement License may possess Summer Flounder harvested outside of Virginia's waters. The buyer shall continue to contact the Marine Resources Commission Operations Station prior to a vessel offloading any Summer Flounder harvested outside Virginia.
