Project Application**

<p>Name and Address of Applicant:</p> <p><i>The Newport News Rotary Club & Coastal Conservation Association</i> 125 Keith Road Newport News, VA 23606 c/o Rob Cowling</p>	<p>Principle Investigator:</p> <p>Project Location: James River Fishing Pier Newport News, Virginia</p>						
<p>Descriptive Title of Project:</p> <p style="font-size: 1.2em;">2006 Children's Fishing Clinic</p>							
<p>Project Summary:</p> <p>The objective of this project is to identify and educate disadvantaged children of Virginia by exposing and instructing them in the recreational aspects of saltwater fishing. The Newport News Rotary Club and The Coastal Conservation Association together will provide the general management of the event as well as the hands on fishing experience. Our intent is to educate approximately 250 disadvantaged youths on conservation ethics, local saltwater aquatic habitats and species, and the art and technique of saltwater fishing with the resultant expectation of lifelong knowledge and participation.</p> <p>The primary plan is to have each child and adult volunteer proceed through a series of educational stations (located at the entrance of the James River Fishing Pier), which increases their knowledge, and appreciation of our natural aquatic resources. Once the educational stations have been completed, a hands-on fishing experience follows supervised by the Coastal Conservation Association. Out on the James river Fishing Pier, children will be given a rod/reel, tackle as well as instruction on the safe and appropriate use of the equipment. Lunch is provided to the children and adult volunteers.</p>							
<p>Expected Benefits:</p> <p>The purpose of this project is to educate children as well as provide them tools that can be used again. Keeping the rods/reels by the children is expected to enhance recreational opportunities among the disadvantaged children as well as promote marine safety, environmental program involvement, and identification of edible and non-edible fish species.</p>							
<p>Costs:</p> <table style="width: 100%; margin-left: 20px;"> <tr> <td style="width: 60%;">Overall Estimated Cost of Project</td> <td style="text-align: right;">\$13,300</td> </tr> <tr> <td>Less Outside Solicited Donations</td> <td style="text-align: right;"><u>-7,300</u></td> </tr> <tr> <td>Requested VRFDF Funding</td> <td style="text-align: right;">\$ 6,000</td> </tr> </table>		Overall Estimated Cost of Project	\$13,300	Less Outside Solicited Donations	<u>-7,300</u>	Requested VRFDF Funding	\$ 6,000
Overall Estimated Cost of Project	\$13,300						
Less Outside Solicited Donations	<u>-7,300</u>						
Requested VRFDF Funding	\$ 6,000

Re: **2006 Children's Fishing Clinic**

Attached you will find the request for funding of the 2006 Children's Fishing Clinic. We will be conducting the 2005 Children's Clinic on July 16, 2005. I have used the same budget figures as this year and do not anticipate any significant changes.

Should you have any questions, please feel free to give me a call at Old Point Trust & Financial Services, 757-599-2207 or my cell, 757-344-0659.

Sincerely,

Robert Cowling, Co-Chairman

125 Keith Road Newport News, VA 23606 (757) 599-2207

Project Proposal-Virginia Recreational Fishing Development Fund

2006 Children's Fishing Clinic

A. Need: A program for educating at-risk children in recreational opportunities which exist locally and yet are unexplored with the resultant expectation of lifelong knowledge and continued participation.

B. Objective: The objective of this project is to identify and educate disadvantaged children of the Virginia Peninsula by exposing and instructing them in the recreational aspects of saltwater fishing.

C. Expected Results or Benefits: As the purpose of this project is to educate children concerning conservation ethics, local saltwater aquatic habitats and species, and the art and technique of salt water angling; this project is expected to enhance recreational opportunities among the at-risk children as well as promote marine safety, environmental program involvement, and identification of edible and non-edible and non-edible fish species.

D. Approach: For the last ten years (1996-2005) the Children's Fishing Clinic was acclaimed as extremely successful. The plan calls for each child and adult volunteer to proceed through a series of educational stations where marine educational demonstrations will be done. The success of the past eight years is attributed to two primary factors, which occur simultaneously. They are:

- ❖ **The Newport News Rotary Club and The Coastal Conservation Association** together provides the general management of the event as well as the hands on fishing experience. The coordination and formation of a diversified committee is instrumental in identifying the needs and resultant solutions to a common Virginia problem. That is, educating at-risk children in recreational opportunities that exist locally and yet, are unexplored with the resultant expectation of lifelong knowledge and participation.

- ❖ Administration functions are jointly managed by the Newport News Rotary Club and The Coastal Conservation Association. The selection of the children is handled by the Newport News Parks & Recreation. They coordinate with many different groups to select and arrange for children and adult volunteers. The day of the event, the two groups (Rotary & CCA) including about 175 volunteers, manage the registration and on site fishing instruction. Each child receives a rod & Reel, tackle, T-shirt and a full lunch. The children will keep the equipment provided so they can continue fishing in the future.

Beyond the actual fishing experience, educational booths are set up in a manner that requires each participating child and adult volunteer to pass through them and stop for a presentation. A sample of the educational booths would be as follows:

- a. **Virginia Marine Science Museum:** Museum staff brings a mobile touch tank for hands on learning featuring aquatic life encountered in the Chesapeake Bay.
- b. **Virginia Marine Resources Commission:** Claude Bain, Director of the Virginia Saltwater Fishing Tournament, will display local bay species they may encounter.
- b. **Emergency Response Stranding Team:** Booth will show how team responds when a sea mammal is stranded on a beach in Virginia.
- c. **VIMMS (Virginia Institute of Marine Science)** A booth showing how fish tagging can help gather valuable research data
- d. **Newport News Parks & Recreation:** Lifeguards will do a display on water safety.

It is proposed that the 2006 Children's Fishing Clinic be held similarly in nature as year's prior. **The request for funding from the Recreational License Fund is \$6,000.** The balance of funds will come from other community sources.

E. **Location:** The location of the event is the James River Fishing Pier, Newport News, VA. The pier is made available to us at **no charge**.

F. **Estimated Cost:**

<u>Item</u>	<u>Description</u>	<u>Amount</u>
Equipment	275 rod/reel (tackle, bait, chum, etc)	\$4,900
Food	hot dogs/chips/water (600 @ \$2.00 each)	\$1,200
Shirts	with logo & sponsors (500 @ \$6.00)	\$3,000
Rental Equipment	potties, tables/chairs, dumpster, Golf cars, etc.	\$ 900
Exhibits	display booth fees	\$ 400
Misc.	printing, postage, site supplies Office supplies, etc.	\$1,400
	Multi-Year Equipment/repairs	<u>\$1,500</u>
	Total Estimated Expenses	\$13,300
	Outside solicited contributions	<u>- \$ 7,300</u>
	Requested funds from Virginia Recreational Fishing Development Fund	\$6,000
