

NOTICE

CHANGE IN SHELLFISH ICING PERMIT PROCEDURE:

The procedure for obtaining a Shellfish Icing Permit during Warm Water Harvest has changed in an attempt to streamline the process.

First, complete the Request for Shellfish Icing Permit online application.

To complete the online Shellfish Icing Permit application, please go to:

<https://webapps.mrc.virginia.gov/public/fisheries/shellfishpermits.php>

Once the application has been submitted, Virginia Dept. of Health/Division of Shellfish Safety (VDH/DSS) will be notified of your request. You will be contacted by an Inspector from VDH/DSS to arrange a date and time to inspect your vessel.

After VDH/DSS has approved the vessel refrigeration, you will receive your Shellfish Icing Permit by email. If you do not have an email address, you can request it sent to you by U.S. Postal Service by contacting the Conservation and Replenishment Department at (757)247-2120 or pick up your Shellfish Icing Permit in person at Marine Resources Commission Main Office, located at 380 Fenwick Road, Bldg. 96, Fort Monroe, VA.

Should you have any questions or require assistance with completing the online application, please contact Jamie Hogge, Conservation and Replenishment Department, at (757) 247-2120.
